None

CAUTION
None

Remarks: None

Notes: None

Performance Steps

1. Verifies that QA/QC procedures have been followed prior to the employment of RFID tags.
 - a. Ensures that outer casing of RFID tag has no cracks
 - b. Ensures that battery has sufficient power to operate tag
 - c. Verifies that docking station adapter (if used) has no broken or missing connector pins
2. Ensures that old shipment information on tag has been deleted or overwritten
 - a. Verifies that correct information for shipment is entered on tag
 - b. Ensures that mounting bracket is serviceable
 - c. Verifies that mounting bracket is securely attached to shipment

(Asterisks indicates a leader performance step.)

Evaluation Guidance: Score the soldier GO if all steps are passed (P). Score the soldier NO-GO if any step is failed (F). If the soldier fails any step, show what was done wrong and how to do it correctly.

Evaluation Preparation: Use a predetermined site and provide the soldier with all required materials and equipment.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT.

Safety: In a training environment, leaders must perform a risk assessment in accordance with FM 5-19, Risk Management. Leaders will complete a DA Form 7566 COMPOSITE RISK MANAGEMENT WORKSHEET during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination.
